EMPLOYMENT

DESIGNER, PHORM DESIGN 2008 - 2009

I worked at Phorm Design as a full-time designer after working freelance for the studio. My projects covered branding, stationery, advertising, web design, leaflets and also vinyl designs for the windows of Velocity Tower in Sheffield city center.

JUNIOR MAC ARTIST, MB ADVERTISING 2007 - 2008

My position required the creation and editing of print and web based marketing for the motor industry. This included developing image montages and the layout of adverts, whilst adhering to aesthetic guidelines laid out by leading car manufacturers.

JUNIOR DESIGNER, 4:3 CREATIVE 2004 - 2005

Initially I worked on speculative designs to help market the studio, including branding and designing a music shop and an art gallery. I contributed to architectural visualisations and proposal documents, also DVD menu design and light web work.
